

August 19, 2004

Mr. Robert Thompson
Thompson Masonry Company, Inc.
P.O. Box 812
Pottstown, PA 19464

Dear Mr. Thompson:

The office of DWKCB Inc., Architects, 8 East Broad Street, Hatfield, PA 19440 have been involved with the construction of the 15th Elementary School for the Central Bucks School District. The construction of the project started in the early Winter of 2003 and will be occupied by the School District for the start of the school term in September 2004.

The project is estimated at \$19,000,000 and will accommodate approximately 1,200 students when its capacity is reached. The schedule for the total project was extremely important as there was a requirement to occupy the building in September of 2004. The building was detailed with masonry construction both on the interior and exterior. Since there was a very critical schedule, the performance of the Masonry Contractor was paramount in terms of establishing the pace for other trades. Our office had the pleasure of working with Thompson Masonry, Inc., 846 Cross Street, Pottstown, PA 19464 during the course of the job.

Thompson Masonry, Inc. performed an excellent job in the construction of the building and were extremely cooperative in terms of resolving all scheduling deadlines. Mr. Bob Thompson personally attended many of our meetings to coordinate work and provide additional manpower as necessary. The work was not only completed in an expeditious manner, but with the highest quality of workmanship. Thompson Masonry, Inc. was extremely cooperative in all facets of this project and it was a pleasure to be working with a firm of this high qualifications.

In conclusion, I would like to say that Thompson Masonry, Inc. is one of the best Masonry Contractors that I have been associated with during my fifty years in the construction industry.

Sincerely,

Fred W. Diserod, R.A.
