Re: Pope John Paul II High School

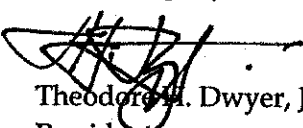

Dear David:

I am writing this letter to let you know how pleased we are with the masonry installation at the new Pope John Paul II High School in Royersford, PA. Before this project we were not familiar with Thompson Masonry, having never worked with your company before. I will admit there was some concern on our part about how the masonry work might turn out since it was such a large part of the building design. I can unequivocally say that our concerns were ill-founded.

Thompson did a wonderful job on the masonry installation. You kept up with our schedule but also maintained a high level of quality for your work. In fact we think it is one of the best quality masonry jobs we have ever been involved with. Your foreman Joe Donofrio was a task master to his crews, but his high standards for quality have resulted in an excellent job that both Thompson and EDiS can be proud of.

Even though we didn't know you before this project, we do now. We would not hesitate to use Thompson Masonry again for another important masonry project in the future. Thank you for doing such a good job for us at Pope John Paul II High School.

Sincerely,
EDiS Company

Theodore H. Dwyer, Jr.
President
